MAGAMBA

ESTABLISHED 1923

HOTEL AND COUNTRY CLUB (BRITISH)

LOCATION	MAGAMBA is delightfully situated four and a half miles from Lushoto, and 5,600 feet up in the healthy and beautiful Usambaras, in 400 acres of private grounds, with a variety of mountain woodland, riverside and grassland scenery. Its extensive flower gardens are unsurpassed. The climate is ideal, the nights being cool, with plenty of warm sunshine during the day.
ACCOMMODATION	Comprises modern guest houses, with electric light, hot and cold basins, fires every evening, and private bathroom, adjoining the club house, of which hotel visitors are full honorary members. There are neither mosquitoes nor house flies, and the water supply is excellent.
CATERING	This is the special consideration of Magamba as there is an abundance of fresh milk, butter, and eggs. Vegetables and fruit are from our own extensive gardens and orchard. There are special catering arrangements for children. The club house is fully licensed.
FISHING	The original home and centre of Tanganyika trout fishing. Several miles of well-stocked streams afford excellent sport within easy walking distance and are reserved for hotel visitors in residence and club members only. Fishing tackle can be hired on the premises.
GOLF	There is an exceptionally well-planned full-length nine-hole golf course with greens. There is also riding, tennis and other recreation.
CHILDREN	Specially welcomed, and have the use of a covered veranda together with large playing fields far from any native huts or other buildings.
TERMS	Dogs are not allowed. These, together with full details of transport facilities on application.

TIME, in East Africa, dates from the conception of the Uganda Railway—perhaps our mightiest project yet—designed to tear the very heart out of slavery and pave the way for a civilization worthy of a place in the British Empire.

As the surveyors commenced their trek into the interior, time became a factor in the life of this lovely country and the years, the months, the weeks and the days became the yardsticks by which achievement is now measured. To the eyes of enterprising men rich farmlands were revealed; the soil and the forests held promise of great wealth and benefit to the world, awaiting only the vigour and determination needed for development. These enterprising men set about their task and in their wake arose the social and business amenities of mankind.

The building of this country has been the work of many men and, as it grows, a monument to enterprise and skill, so grows the pride of Gailey & Roberts, Limited, in the all-important part they have played in the essential service of supply.
